a keen analysis of how and why countries bargain together in groups in world affairs and why such coalitions are crucial to individual developing nations it also reveals the effects these negotiating blocs are having on world affairs successful coalition building has proven to be a difficult and expensive process allies are often not obvious and need to be carefully identified large numbers do not necessarily entail a proportionate increase in influence and the weak have the choice of teaming up against or jumping on the bandwagon with the strong even after it has been organised collective action entails costs of many kinds this book investigates the relevance and workability of coalitions as instruments of bargaining power for the weak more specifically this analyzes the coalition strategies of developing countries at the inter state level particularly in the context of international trade given the nature of this enquiry this new study uses theoretical and empirical methods to complement each other the theoretical

approach draws from a plethora of writings formal theories of clubs and coalitions theories of domestic political economy and theories of international relations the empirical analysis of comparable coalitions becomes necessary to assist in this theorising so the greater part of the book focuses mainly though not exclusively on coalitions involving developing countries on the issue area of trade in services through the case studies of the uruguay round and an analytical overview of more recent coalitions this text fills an important gap in the literature of international political economy and international relations where most gatt wto based coalitions have eluded record this book will be of great interest to all students of international relations politics and globalization

eden examines how transfer pricing has been handled in different disciplines including international business economics accounting law and public policy

despite an increasing global awareness of environmental concerns setting internationally binding and ambitious commitments has proven exceedingly complex as states are seeking alternative methods to support global environmental protection this book takes a closer look at the possibility of using national trade measures that make market access conditional on the environmental impact of the production process abroad

as national competition laws proliferate and enforcement efforts increase the international competition law system is increasingly beset with conflicts between states with competing interests this book explores ways to reduce conflicts contending that an international competition law system is evolving
