an introduction to the history of documenting history and historians beginning with early myths and then looking at jewish greek roman and christian historians

this classic introduction to the study of history invites the reader to stand back and consider some of

its most fundamental questions what is the point of studying history how do we know about the past does an objective historical truth exist and can we ever access it in answering these central questions john Tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them the fifth edition has been revised and updated throughout with the addition of new sections on global history comparative history postcolonialism women s and gender history oral history and memory lucid and engaging this new edition retains all the user friendly features that have helped to make this book a favourite with both students and lecturers including marginal glosses illustrations suggested further reading and boxed guides to key events and people

this unprecedented book by one of Britain s leading intellectual historians describes the intellectual impact that the study and consideration of the past has had in the western world over the past 2500 years treating the practise of history not as an isolated pursuit but as an aspect of human society and an essential part of the cultural history of Europe and America it magnificently brings to life the work of historians from the Greeks to the present including Livy Tacitus Bede Froissart Clarendon Gibbon Macaulay Michelet Prescott and Parkman explaining their distinctive qualities and allowing the modern reader to appreciate and enjoy them but is also examines subjects as diverse as the new perspectives brought about by the rise of Rome the interests of medieval chroniclers the introduction into historical narratives of what the eighteenth century called sentiment the effects of Romanticism and the emergence towards the end of the nineteenth century of an historical profession it sets out to be not the history of an academic discipline but a history of choice the choice of pasts and the ways they have been demarcated investigated presented and even sometimes learned from as they have changed according to political religious cultural and often most importantly patriotic circumstances the book also aims to change our perceptions of the main turning points in the history of history it dispels persistent myths such as that the ancient historians wrote only contemporary history and had a purely cyclical view of time that the eighteenth century lacked understanding of the past and that the critical study of sources began only with Ranke in the nineteenth century the ideas that historians have had about both their own times and their civilization emerge freshly and often unexpectedly burrow argues that looking at the history of history is one of the most interesting ways we can try to understand the past nothing on the scale of or with the ambition of his book has yet been attempted in English
